City of Detroit Downtown Development Authority

REQUEST FOR PROPOSALS

DDA RIVERFRONT PROPERTY: DESIGN-BUILD SEAWALL RECONSTRUCTION
associated with the
City of Detroit DDA’s LAND ASSEMBLY PROJECT
RFP- 2020-DDASeawall-001

The City of Detroit Downtown Development Authority (DDA) invites Specialty Contractors, experienced and well-qualified in the engineering and construction of seawalls, to submit a Proposal for the design-build reconstruction or refurbishing of the existing seawall along the Detroit River at the DDA’s property located at 1351 W. Jefferson Ave, Detroit, MI 48226.

The DDA currently owns the property located at 1351 W. Jefferson Ave, Detroit, MI 48226 which is between Riverfront Towers on the east and the Ralph C. Wilson Centennial Park (RCWCP) on the west. The existing Wakefield Sheeting timber and concrete capped seawall along the property at the Detroit River has been in an observable state of deterioration for several years and is believed to be the source of a significant subsidence causing potholes and settlement along the shore line.

Interested Parties may request a copy of the Request for Proposals by email to Gary Brown at gmbrown@degc.org.

A Pre-Proposal Meeting is scheduled for Thursday, February 27, 2020 at 1:00 PM in the DEGC conference room A, 500 Griswold Street, Suite 2200, Detroit. Attendance is mandatory for submission of a responsive proposal.

PROPOSAL Submittal Date: March 26, 2020 4 PM
