Projects
Brownfield Plan for the Godfrey Hotel
Ms. Capler presented the Brownfield Plan for the Godfrey Hotel.

Project Introduction
Godfrey Detroit PropCo, LLC is the project developer (the “Developer”) for the Plan. The project entails the construction of a new, 227-room hotel located along Michigan Avenue in Detroit's historic Corktown neighborhood, one mile west of the central business district. The proposed hotel includes a ground-level lobby, bar and restaurant, an approximately 6,000 square-foot ballroom with prefunction space, and a rooftop café and amenity space.

The total investment is estimated to be $74.1 million. The Developer is requesting $5,391,811.00 in TIF reimbursement.

There will be approximately 350 temporary construction jobs and 160-200 FTE jobs.

Property Subject to the Plan
The eligible property (the “Property”) consists of two (2) parcels located at 1401 and 1411 Michigan Avenue roughly bounded by Michigan Avenue to the north, 8th Street to the east, Leverette Street to the south, and the property line to the west in Detroit’s Corktown neighborhood.

Basis of Eligibility
The Property is considered “eligible property” as defined by Act 381, Section 2 because (a) the Property was previously utilized for a commercial purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be a “Facility” as defined by Act 381.

Eligible Activities and Projected Costs
The “eligible activities” that are intended to be carried out at the Property are considered “eligible activities” as defined by Sec 2 of Act 381, because they include department specific activities (environmental assessments, due care activities, and other response activities), demolition, lead and asbestos abatement,
site preparation, infrastructure improvements, interest, and development, preparation and implementation of a Brownfield Plan and Act 381 Work Plan. The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. The eligible activities are estimated to commence within 18 months of approval of the Plan and be completed within 3 years.

Tax Increment Financing (TIF) Capture
The Developer desires to be reimbursed for the costs of eligible activities. Tax increment revenue generated by the Property will be captured by the DBRA and used to reimburse the cost of the eligible activities completed on the Property after approval of this Plan pursuant to the terms of a Reimbursement Agreement with the DBRA.
