I. INTRODUCTION

In order to promote the revitalization of environmentally distressed and blighted areas within the boundaries of the City of Detroit, Michigan (the "City"), the City has established the City of Detroit Brownfield Redevelopment Authority (the "DBRA") pursuant to Michigan Public Act 381 of 1996, as amended ("Act 381").

The primary purpose of this Brownfield Plan ("Plan") is to promote the redevelopment of and private investment in certain "brownfield" properties within the City. Inclusion of property within this Plan will facilitate financing of environmental response and other eligible activities at eligible properties and will also provide tax incentives to eligible taxpayers willing to invest in revitalization of eligible sites, commonly referred to as "brownfields." By facilitating redevelopment of brownfield properties, this Plan is intended to promote economic growth for the benefit of the residents of the City and all taxing units located within and benefited by the DBRA.

This Plan is intended to apply to the eligible property identified in this Plan and to identify and authorize the eligible activities to be funded by tax increment revenues generated and captured from that eligible property.

This Plan is intended to be a living document, which may be modified or amended in accordance with the requirements of Act 381, as necessary to achieve the purposes of Act 381. A subsequent change to the identification or designation of a developer or proposed use of the eligible property after the approval of this Plan by the governing body (as defined by Act 381) shall not necessitate an amendment to this Plan, affect the application of this Plan to the eligible property or impair the rights available to the DBRA under this Plan. The applicable sections of Act 381 are noted throughout the Plan for reference purposes.

This Plan describes the project to be completed (see Attachment C) and contains all of the information required by Section 13(2) of Act 381.

II. GENERAL PROVISIONS

A. Description of the Eligible Property (Section 13 (2)(h)) and the Project

The property comprising the eligible property consists of one parcel. **450 Amsterdam Street** is a functionally obsolete and a historic resource. The parcel and all tangible personal property located thereon will comprise the eligible property and is collectively referred to herein as the "Property."

Attachment A includes a site map of the Property. The Property is located in Detroit's TechTown, north of Midtown Detroit, bounded by the railroad right-of-way to the north, the property line to the east, Amsterdam Street to the south and the property line to the west.

Parcel information is outlined below.

Address	450 Amsterdam Street
Parcel ID	02001073.002L
Owner	9450 Amsterdam LLC
Legal Description	N AMSTERDAM O L 116 LYG BETW MCRR R/W & AMSTERDAM AVE EXC E 165 FT ON S LINE BG E 161.35 FT ON N LINE SUB OF PT OF CASS FARM L1 P175-6 PLATS, W C R 2/103 60&59 50&49 AND E/W VAC ALLEY ADJ ALSO VAC BOSTON ST ADJ EXC S 23.53 FT OF W 160.05 FT ALSO S 170 FT OF E 10 FT EXC W 0.53 FT OF N 50.17 FT OF S 170 FT OF VAC ALLEY W & ADJ MANDELBAUMS SUB L2 P8 PLATS, W C R 2/62 375.17 IRREG

9450 Amsterdam, LLC is the project developer ("Developer") and the owner of the Property. The project will rehabilitate a historic Cadillac Motor Car Company Assembly Plant that was originally built in 1905. The building was most recently occupied by Westcott Displays, Inc. until operations shuttered and the buildings were vacated. The rehabilitation will include the construction of approximately 90 loft-style apartment units, ranging from studios to two-bedroom units. It is currently anticipated construction will begin in the spring of 2023 and eligible activities will be completed within approximately 14 months thereafter. The project description provided herein is a summary of the proposed development at the time of the adoption of this Plan. The actual development may vary from the project description provided herein (including, without limitation, the references to square footage or number of units), without necessitating an amendment to this Plan, so long as such variations are not material and/or arise as a result of changes in market and/or financing conditions affecting the project and/or are related to the addition or immaterial removal of amenities to the project. All material changes, as determined by DBRA in its sole discretion, to the project description are subject to the approval of the

DBRA staff and shall be consistent with the overall nature of the proposed development, its proposed public purpose, and the purposes of Act 381.

Attachment C provides a detailed description of the project to be completed at the Property (the "Project") and Attachment D includes letters of support for the Project.

B. Basis of Eligibility (Section 13 (2)(h) and Section 2 (p))

The Property is considered "eligible property" as defined by Act 381, Section 2 because the Property (a) was previously utilized for an industrial purpose; (b) is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) is determined to be "functionally obsolete" and a "historic resource" as defined by Act 381.

The building's construction techniques and aging infrastructure has left it unable to be used to adequately perform the function for which it was intended due to substantial loss in value. A letter from the City of Detroit Assessor (i.e. level 3 or level 4 assessor) certifying that the property is Functionally obsolete is included as Attachment I. The determination of the City of Detroit Assessor was based on the following:

- Originally intended for industrial use and without substantial updates and renovations
- The property is not able to meet market demand for its future residential use for several reasons, including but not limited to, lack of modern electrical, plumbing, mechanical and fiber optic systems, poor condition of the floors, ceilings, roof, and walls, lack of fire protection systems, lack of energy efficiency in antiquated materials and equipment, obsolete building materials through the present of lead and asbestos, and inadequate clearance height and column span compared to market standards

The Property is a contributing structure to the New Amsterdam Historic District which was listed in the National Register of Historic Places on May 30, 2001. The property is also currently under review with the Assessor's office for a functional obsolescence determination.

C. Summary of Eligible Activities and Description of Costs (Section 13 (2)(a),(b))

The "eligible activities" that are intended to be carried out at the Property pursuant to this Plan are considered "eligible activities" as defined by Section 2 of Act 381, because they include baseline environmental assessment activities (work plan exempt activities), site and building demolition, asbestos and lead abatement, site preparation, interest, and the development, preparation and implementation of a brownfield plan and/or Act 381 work plan.

A summary of the eligible activities and the estimated cost of each eligible activity intended to be reimbursed with tax increment revenues generated and captured from the Property are shown in the table attached hereto as Attachment E. The eligible activities described in Attachment E are not exhaustive. Subject to the approval of DBRA staff in writing, additional eligible activities may be carried out at the Property, without requiring an

amendment to this Plan, so long as such eligible activities are permitted by Act 381 and the costs of such eligible activities do not exceed the total costs stated in Attachment E.

Unless otherwise agreed to in writing by the DBRA, all eligible activities shall commence within eighteen (18) months after the date the governing body approves this Plan and shall be completed within three (3) years after execution of the Reimbursement Agreement (as that term is defined below). Any long-term monitoring or operation and maintenance activities or obligations that may be required will be performed in compliance with the terms of this Plan and any documents prepared pursuant to this Plan.

The Developer desires to be reimbursed for the costs of eligible activities as described herein. Some eligible activities may commence prior to the adoption of this Plan and, to the extent permitted by Act 381, the costs of such eligible activities shall be reimbursable pursuant to the Reimbursement Agreement. BEA Activities have already been incurred as the Michigan Department of Environment, Great Lakes, and Energy ("EGLE") Pre-Approved Activities and are included within this request. The BEA Activities were conducted between 2020 and 2022 and it is anticipated demolition and asbestos activities may begin prior to the adoption of this Plan during the spring of 2023. To the extent permitted by Act 381, tax increment revenue generated by the Property will be captured by the DBRA and used to reimburse the cost of the eligible activities completed on the Property pursuant to the terms of a Reimbursement Agreement to be executed by the DBRA and the Developer after approval of this Plan (the "Reimbursement Agreement"). In the event this Plan contemplates the capture of tax increment revenue derived from "taxes levied for school operating purposes" (as defined by Section 2(vv) of Act 381 and hereinafter referred to as "School Taxes"), the Developer acknowledges and agrees that DBRA's obligation to reimburse the Developer for the cost of eligible activities with tax increment revenue derived from Local Taxes, or Specific Taxes that are considered Local Taxes, (as these capitalized terms are defined by Act 381) is contingent upon: (i) the Developer receiving at least the initial applicable work plan approvals by the Michigan Strategic Fund ("MSF") and EGLE, as may be required pursuant to Act 381, within 270 days after this Plan is approved by the governing body; or (ii) the Developer providing the DBRA with evidence, satisfactory to DBRA, that the Developer has the financial means to complete the Project without the capture of, and subsequent reimbursement with, the contemplated School Taxes.

The costs listed in Attachment E are estimated costs and may increase or decrease depending on the nature and extent of any environmental contamination and other unknown conditions encountered on the Property. The actual cost of those eligible activities encompassed by this Plan that will qualify for reimbursement from tax increment revenues generated from the Property and captured by the DBRA shall be governed by the terms of the Reimbursement Agreement. No costs of eligible activities will be qualified for reimbursement except to the extent permitted in accordance with the terms and conditions of the Reimbursement Agreement and Act 381. The Reimbursement Agreement and this Plan will dictate the total cost of eligible activities subject to payment or reimbursement, provided that the total cost of eligible activities subject to payment or reimbursement under the Reimbursement Agreement shall not exceed the estimated costs

set forth in Attachment E. As long as the total aggregate costs are not exceeded, line item costs of eligible activities may be adjusted after the date this Plan is approved by the governing body, to the extent the adjustments do not violate the terms of the approved EGLE or MSF work plans.

D. Estimate of Captured Taxable Value and Tax Increment Revenues (Section 13(2)(c)); Beginning Date of Capture of Tax Increment Revenues (Section (13)(2)(f); Impact of Tax Increment Financing on Taxing Jurisdictions (Section 13(2)(g))

This Plan anticipates the capture of tax increment revenues to reimburse the Developer for the costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. Subject to Section 13(b)(16) of Act 381, a table of estimated tax increment revenues to be captured pursuant to this Plan is attached as Attachment F. The figures included in Attachment F are estimates and are subject to change depending on actual assessed values and changes to annual millage rates.

Tax increments are projected to be captured and applied to the (i) reimbursement of eligible activity costs and payment of DBRA administrative and operating expenses, (ii) make deposits into the State Brownfield Redevelopment Fund, and (iii) make deposits into the DBRA's Local Brownfield Revolving Fund, as follows:

	Reimbursement Costs	Admin. Costs	State Brownfield Fund	Local Brownfield Revolving Fund	Totals
School Operating Tax	\$689,114.66	\$0.00	\$0.00	\$0.00	\$689,114.66
State Education Tax	\$121,301.65	\$0.00	\$181,619.46	\$0.00	\$302,921.11
City Operating	\$562,288.64	\$273,191.86	\$0.00	\$310,397.33	\$1,145,877.83
Library	\$130,502.71	\$63,405.65	\$0.00	\$72,040.74	\$265,949.10
Wayne County Operating (summer)	\$158,098.59	\$76,813.30	\$0.00	\$87,274.36	\$322,186.25
Wayne County Operation (winter)	\$27,700.16	\$13,458.31	\$0.00	\$15,291.18	\$56,449.64
Wayne County Jails	\$26,372.78	\$12,813.40	\$0.00	\$14,558.43	\$53,744.61
Wayne County Parks	\$6,882.06	\$3,343.70	\$0.00	\$3,799.07	\$14,024.83
НСМА	\$5,833.69	\$2,834.34	\$0.00	\$3,220.34	\$11,888.37
Wayne County RESA Enhancement	\$56,014.68	\$27,215.12	\$0.00	\$30,921.50	\$114,151.30
Wayne County RESA (ISD)	\$2,694.21	\$1,309.00	\$0.00	\$1,487.27	\$5,490.47
Wayne County RESA Special Ed	\$94,249.29	\$45,791.68	\$0.00	\$52,027.96	\$192,068.93
Wayne County Community College	\$90,751.90	\$44,092.44	\$0.00	\$50,097.31	\$184,941.65
TOTAL	\$1,971,805.00	\$564,268.81	\$181,619.46	\$641,115.48	\$3,358,808.74
In Addition the following taxes are proj	ected to be generated	but shall not be o	aptured during the	life of this Plan:	
City Debt	\$516,885.55				
School Debt	\$746,612.46				
Wayne County DIA	\$11,405.94				
Wayne County Zoo	\$5,697.23				
Total	\$1,280,601.17				

In no event shall the duration of this Plan exceed thirty-five (35) years following the date of the governing body's resolution approving this Plan, nor shall the duration of the tax capture exceed the lesser of the period authorized under subsection (5) of Section 13 of Act 381 or 30 years. Further, in no event shall the beginning date of the capture of tax

increment revenues be later than five (5) years after the date of the governing body's resolution approving this Plan or such other date authorized by Act 381. The base year and beginning date of the capture of tax increment revenues is anticipated to be the 2023 tax year (commencing with the Summer 2023 property taxes).

E. Plan of Financing (Section 13(2)(d)); Maximum Amount of Indebtedness (Section 13(2)(e))

The eligible activities are to be financed solely by the Developer. The DBRA will reimburse the Developer for the cost of approved eligible activities, but only from tax increment revenues generated and captured from the Property. No advances have been or shall be made by the City or the DBRA for the costs of eligible activities under this Plan.

All reimbursements authorized under this Plan shall be governed by the Reimbursement Agreement. The inclusion of eligible activities and estimates of costs to be reimbursed in this Plan are intended to authorize the DBRA to fund such reimbursements and does not obligate the DBRA or the City to fund any reimbursement or to enter into the Reimbursement Agreement providing for the reimbursement of any costs for which tax increment revenues may be captured under this Plan, or which are permitted to be reimbursed under this Plan. The amount and source of any tax increment revenues that will be used for purposes authorized by this Plan, and the terms and conditions for such use and upon any reimbursement of the expenses permitted by this Plan, will be provided solely under the Reimbursement Agreement contemplated by this Plan.

If agreed upon by the Developer and the DBRA, and so long as the applicable agency/department of the State of Michigan approves an Act 381 work plan including this Plan, the DBRA may incur note or bonded indebtedness to finance the purposes of this Plan; provided that any such note or bonded indebtedness contemplated by this section shall be (i) subject to approval by the DBRA Board of Directors and other approvals required in accordance and compliance with Act 381 and applicable law; (ii) non-recourse to the DBRA; and (iii) in an amount not to exceed the maximum amount of tax increment revenues authorized for capture under this Plan and any subsequent Act 381 work plan approvals.

Interest shall be paid under this Plan as provided in the Reimbursement Agreement, provided that to the extent that the MSF or EGLE does not approve the payment of interest on an eligible activity with School Taxes, interest shall not accrue or be paid under this Plan from School Taxes with respect to the cost of such eligible activity. Unless otherwise agreed upon by the Developer, the DBRA, and the applicable agency/department of the State of Michigan, the DBRA may approve interest on the local portion of the reimbursement to the extent that the projected internal rate of return to the Developer does not exceed twenty (20%), as more specifically stated in the Reimbursement Agreement.

Reimbursements under the Reimbursement Agreement shall not exceed the estimated total cost of eligible activities permitted under this Plan. For the avoidance of doubt, if the approved interest rate for interest on eligible activities described in this Plan (i.e. 5%) would result in actual reimbursement to the Developer that would exceed the estimated

total costs for reimbursement described in Attachment E (the "Maximum Reimbursement"); notwithstanding the approved interest rate for eligible activities in this Plan, the actual reimbursement to Developer for all eligible activities (including interest) shall under no circumstances exceed the Maximum Reimbursement.

The Developer acknowledges and agrees that any eligible activities funded by a grant or loan that is forgiven, or for which the Developer receives a credit for, shall be ineligible for reimbursement under this Plan and shall not be included in any reimbursement requests to DBRA by or on behalf of the Developer. However, any loans that the Developer is required to unconditionally repay shall be eligible for reimbursement under the Plan, subject to the Reimbursement Agreement.

The Developer was approved for a tax abatement under the Neighborhood Enterprise Zone Act, P.A. 147 of 1992, as amended ("NEZ"). The NEZ will reduce the property tax obligations of the Property for the period applicable under the approved abatement certificate, thereby reducing the amount of tax increment revenues available under this Plan. Assumption of this reduction is included in the tax capture projections provided with this Plan. Notwithstanding the tax capture projections described in Attachment F, the DBRA shall be permitted to capture tax increment revenue derived from Local Taxes, or Specific Taxes that are considered Local Taxes, during the abatement period.

F. Duration of Plan (Section 13(2)(f))

Subject to Section 13b(16) of Act 381, the beginning date and duration of capture of tax increment revenues for the Property shall occur in accordance with the tax increment financing (TIF) table described in Attachment F. In no event, however, shall this Plan extend beyond the maximum term allowed by Section 13(b)(16) of Act 381 for the duration of this Plan.

Furthermore, this Plan, or any subsequent amendment thereto, may be abolished or terminated in accordance with Section 14(8) of Act 381 in the event of any of the following:

- a. The governing body may abolish this Plan (or any subsequent amendment thereto) when it finds that the purposes for which this Plan was established have been accomplished.
- b. The governing body may terminate this Plan (or any subsequent amendment thereto) if the project for which eligible activities were identified in this Plan (or any subsequent amendment thereto) fails to occur with respect to the eligible property for at least two (2) years following the date of the governing body's resolution approving this Plan (or any subsequent amendment thereto), provided that the governing body first does both of the following: (i) gives 30 days' written notice to the Developer at its last known address by certified mail or other method that documents proof of delivery attempted; and (ii) provides the Developer with an opportunity to be heard at a public meeting.

Notwithstanding anything in this subsection to the contrary, this Plan (or any subsequent amendment thereto) shall not be abolished or terminated until the principal and interest on

bonds, if any, issued under Section 17 of Act 381 and all other obligations to which the tax increment revenues are pledged have been paid or funds sufficient to make the payment have been identified or segregated.

G. Effective Date of Inclusion in Brownfield Plan

The Property will become a part of this Plan on the date this Plan is approved by the governing body.

H. Displacement/Relocation of Individuals on Eligible Property (Section 13(2)(i-l))

There are no persons or businesses residing on the Property and no occupied residences or businesses will be acquired or cleared, therefore there will be no displacement or relocation of persons or businesses under this Plan.

I. Local Brownfield Revolving Fund ("LBRF") (Section 8; Section 13(2)(m))

The DBRA has established a Local Brownfield Revolving Fund (LBRF). The LBRF will consist of all tax increment revenues authorized to be captured and deposited in the LBRF, as specified in Section 13(5) of Act 381, under this Plan and any other plan of the DBRA. It may also include funds appropriated or otherwise made available from public or private sources.

The amount of tax increment revenue authorized for capture and deposit in the LBRF is estimated at \$641,115. All funds, if any, deposited in the LBRF shall be used in accordance with Section 8 of Act 381.

J. Brownfield Redevelopment Fund (Section 8a; Section 13(2)(m))

The DBRA shall pay to the Department of Treasury at least once annually an amount equal to 50% of the taxes levied under the state education tax, 1993 PA 331, MCL 211.901 to 211.906, that are captured under this Plan for up to the first twenty-five (25) years of the duration of capture of tax increment revenues for each eligible property included in this Plan. If the DBRA pays an amount equal to 50% of the taxes levied under the state education tax, 1993 PA 331, MCL 211.901 to 211.906, on a parcel of eligible property to the Department of Treasury under Section 13b(14) of Act 381, the percentage of local taxes levied on that parcel and used to reimburse eligible activities for the Project under this Plan shall not exceed the percentage of local taxes levied on that parcel that would have been used to reimburse eligible activities for the Project under this Plan if the 50% of the taxes levied under the state education tax, 1993 PA 331, MCL 211.901 to 211.906, on that parcel were not paid to the Department of Treasury under Section 13b(14) of Act 381.

K. Developer's Obligations, Representations and Warrants (Section 13(2)(m))

The Developer shall comply with all applicable laws, ordinances, executive orders, or other regulations imposed by the City or any other properly constituted governmental authority with respect to the Property and shall use the Property in accordance with this Plan.

The Developer, at its sole cost and expense, shall be solely responsible for and shall fully comply with all applicable federal, state, and local relocation requirements in implementing this Plan.

Exhibit A 450 Amsterdam Redevelopment Brownfield Redevelopment Plan

The Developer represents and warrants that a Phase I Environmental Site Assessment ("ESA") and a Phase II ESA, pursuant to Part 201 of Michigan's Natural Resources and Environmental Protection Act (MCL 324.20101 *et seq.*), has been performed on the Property (collectively, the "Environmental Documents"). Attached hereto as Attachment G is the City of Detroit's Department of Buildings, Safety Engineering and Environmental acknowledgement of its receipt of the Environmental Documents.

The Developer further represents and warrants that the Project does not and will not include a City of Detroit Land Bank Authority, Wayne County Land Bank Authority or State of Michigan Land Bank financing component.

Except as otherwise agreed to by the DBRA, any breach of a representation or warranty contained in this Plan shall render the Plan invalid, subject to the Developer's reasonable opportunity to cure as described in the Reimbursement Agreement.

450 Amsterdam Street Redevelopment

PROJECT DESCRIPTION

Development Team and Company Synopsis

9450 Amsterdam LLC (Developer) is an affiliate of Greatwater Opportunity Capital (Greatwater). Greatwater Opportunity Capital LLC is a real estate private equity investment manager and development firm focused on Detroit. Over the last several years, the principals of Greatwater have focused on investing in Detroit's neighborhoods. Greatwater has a robust portfolio of investments in Detroit's Opportunity Zones. In total, the principals of Greatwater own and manage over 1,200 apartment units across 33 properties in addition to 22 acres of vacant residential land. The Greatwater management team is comprised of co-founders Jed Howbert, Justin Golden and Matt Temkin. Collectively, they have a diverse range of expertise in real estate development, finance and law.

The development team has selected Whiting-Turner as the General Contractor through a competitive bid process.

Project Synopsis

The Developer intends to renovate the three-story industrial building located in Detroit's TechTown Neighborhood and the New Amsterdam Historic District. The building was designed by George D. Mason and was originally occupied by the Cadillac Motor Car Company Assembly Plant when it opened in 1905. Most recently, the building was occupied by Westcott Paper Products for the manufacturing of paper and cardboard products until 2022.

The building totals 60,608 gross square

feet based on Assessor's records and was constructed in approximately 1905.

The project will convert the building into residential use. The redevelopment will include 90 apartment units consisting of approximately 24 studios, 56 one-bedroom units, and 10 two-bedroom units. Amenities include patios or balconies for select units, on-site parking, a fitness center, and a lobby and mail room. Studios generally range from 300-350 square feet, one-bedrooms between 400-850 square feet, and two-bedrooms between 735-950 square feet. Unit heating and cooling will be controlled individually by tenants and in-unit washers and dryers are planned.

Twenty percent of the residential units will be reserved as affordable units at 80% Area Median Income (AMI).

In addition, portions of the property will be turned into greenspace and will be landscaped to provide an outdoor courtyard amenity for residents. Other outdoor space includes a gas fire pit and outdoor cooking grills.

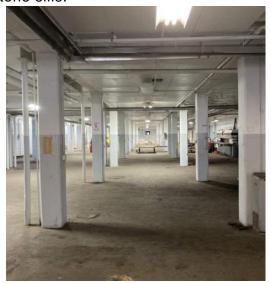

The redesign of the building incorporates considerations specific to the rehabilitation of

a historic building while providing essential elements for modern urban living. The rehabilitation of the property also includes the repair of deteriorated and/or damaged historic concrete and brick facades. Particular attention will be given to replicating the original steel windows while utilizing the existing stone sills.

Upon completion, this project will bring a historic and functionally obsolete building back to productive use, provide new residential housing in the growing TechTown Detroit, and will further catalyze economic development in the area.

Project Investment Estimates

Capital Cost	Total Cost	
Acquisition Cost	\$	3,350,000
Renovation/Rehabilitation	\$	18,230,307
Soft Costs	\$	5,933,275
Total Capital Costs	\$	27,513,582

Anticipated Capital Stack	Tot	Total Amount		
Senior Lender	\$	12,000,000		
Historic Tax Credit Equity	\$	864,859		
Historic Tax Credit Bridge Loan	\$	2,335,119		
Equity	\$	12,313,604		
Total Sources Costs	\$	27,513,582		

Additional Financing Incentives Associated with the Redevelopment

Substantial investment is necessary to rehabilitate the existing building. In efforts to grow this project into a viable, long-term redevelopment, the Developer has secured Neighborhood Enterprise Zone (NEZ) certificates which have been approved by the City of Detroit and the State Tax Commission and are currently held in abeyance.

Cost/Benefit Analysis

The proposed project will help meet demand for housing stock in Detroit's TechTown neighborhood and bring more than 60,000 square feet back to productive use after vacancy and a market turnaway from manufacturing. This redevelopment is also part of Greatwater's focus to stabilize housing, meet the demands for a variety of housing typologies and affordability rates, and to ensure housing is offered at accessible locations. This means ensuring that the development of housing provides access to public transportation and services and is near to commercial and employment attractions.

The project will increase the density of TechTown to further drive economic development in the surrounding area and provide quality housing in a growing neighborhood. The conversion to a residential use is more compatible with existing uses in the area including the elementary school across the street, UPrep. Local businesses in the area will benefit from an influx of new residents into the area and an increase in spinoff consumer spending as well as bringing patrons and vibrancy beyond the daytime working hours.

On a short-term basis, approximately 180 construction jobs will be needed during the estimated 14-month construction period. On a long-term basis the proposed redevelopment associated with the project will create approximately 1 full time equivalent (FTE) job associated with the property management.

During the construction phase, the general contractor (GC) has been advised by the development team to make additional efforts to solicit bids from Detroit based businesses and firms that hire residents of the city of Detroit. The contractor will widely circulate the bid documents including to a list of Detroit based, minority-, woman-, or veteran owned

subcontractors. The development team will review all bids received from these subcontractors.

TechTown is comprised of several apartment buildings and institutions. The developer has received and garnered support from local organizations including Midtown Inc., TechTown, The Platform (local property owner) and UPrep.

The additional residential apartments within this project will create approximately 90 additional households that will contribute to new income tax for the City of Detroit. Therefore, it is anticipated the City of Detroit will collect approximately 2.4% income tax per resident per year. This estimate is based on the median household income within the City of Detroit multiples by the number of new households created.

Following the expiration of the 15-year NEZ abatement, the building will deliver a significant increase in property tax revenue.

RE: 450 Amsterdam Brownfield Redevelopment Plan

Dear Ms. Kanalos,

The Detroit Brownfield Redevelopment Authority (DBRA) has received the 450 Amsterdam Brownfield Redevelopment Plan (the "Plan") for consideration.

9450 AMSTERDAM LLC is the project developer ("Developer"). The property in the Plan consists of one (1) parcel bounded by railroad tracks to the north, Cass Avenue to the east, Amsterdam Street to the south, and a residential development on Second Avenue to the west in the New Center/Tech Town neighborhood of Detroit.

The project consists of the redevelopment of the existing historic structure, which was previously used for an industrial purpose, into approximately 90 residential units (24 studios, 56 one-bedroom and 10 two-bedroom units) with 20% of the units at 80% of the Area Median Income (AMI). The project will include secured gated parking, indoor bike storage, and resident storage. The project will also reconfigure approximately 70 surface parking spaces on the adjoined paved area.

The project will redevelop an underutilized, historic, and contaminated property to provide new residential units in the New Center/Tech Town neighborhood of Detroit. Total investment is estimated at \$27.5 million.

The review for this brownfield plan is complete and all comments have been forwarded to the developer. No adverse comments were received. The Planning and Development Department recommends approval of the brownfield plan as submitted.

Sincerely,

Russell Baltimore Assistant Director Design

Planning and Development Department

February 10, 2023

Mr. John Howbert Authorized Representative 9450 Amsterdam LLC 6001 Cass Ave Detroit, MI 48202

Dear John,

Tech Town is pleased to provide a letter of support to your proposed multifamily development project, currently known as 450 Amsterdam, on Amsterdam St between Cass and Second Ave. in New Center. 450 Amsterdam is an integral building with an even more integral history in the shaping of not only New Center but the City of Detroit as the birth place of Cadillac. This former industrial building has long sat empty and the reactivation of this building with 92 residential units with a mixture of studios, 1 bedrooms, and 2 bedroom units will contribute to the growing vibrancy of the neighborhood and supports the overall need for housing and walkability in the area.

Tech Town has long since been an anchor in the neighborhood providing coworking space and collaborative experiences for local entrepreneurs and small businesses. This commitment to Detroit's local entrepreneurs has led to the growth of the neighborhood with further commitments of Wayne State University as well as the Platform with the rehabilitation of 6001 Cass Ave.

Walkable neighborhoods with housing and density are the hallmarks of livable neighborhoods for people and 450 Amsterdam contributed to that mission.

Tech Town is glad to offer our support for the 450 Amsterdam project.

Sincerely,

Ned Staebler

President and CEO

February 13, 2023

Detroit City Council 2 Woodward Ave, Rm 1340 Detroit, MI 48226

Re: 450 Amsterdam BTIF

Dear City Council Members,

Midtown Detroit Inc. would like to express its support for a Brownfield Tax Increment Financing district for the proposed development at 450 Amsterdam.

450 Amsterdam sits in the City's New Center neighborhood. As a former industrial site located in a historic district, the building is eligible for Federal Historic Tax Credits, Obsolete Building Rehabilitation Act tax abatement, and the Brownfield TIF the development is seeking.

The redevelopment of 450 Amsterdam will restore the three-story plus basement level industrial building into a highly desirable apartment building with 90 units. 20% of these units will be set aside as affordable at 80% AMI with the remaining 80% being market rate. The development will be highly amenitized with gated parking, indoor bike storage, and residential storage space, along with indoor and outdoor community spaces. Adjacent to the site of the Henry Ford Health and Detroit Pistons housing development, 450 Amsterdam is located in an ideal location that will only increase in appeal in the coming years. The development will be one of the first in a series of developments in the New Center area that will help invigorate the neighborhood with new residents and businesses.

For these reasons we strongly encourage you to approve the Brownfield TIF for 450 Amsterdam.

Sincerely,

Susan T. Mosey
Executive Director

lum 7. money

HENRY FORD HEALTH

February 23, 2023

Mrs. Sarah Pavelko Senior Director of Development 9450 Amsterdam LLC 6001 Cass Ave Detroit, MI 48202

Dear Sarah,

Henry Ford Health is pleased to provide a letter of support to your proposed residential development project at 450 Amsterdam on Amsterdam St between Cass and Second Ave in New Center/TechTown. As we understand it, 450 Amsterdam was the first Cadillac Assembly Plant in the city of Detroit. Revitalization of this structure with 92 residential units is key to creating a dense walkable neighborhood.

Henry Ford Health recently announced a \$2.5 billion plan to expand the Henry Ford Hospital campus and foster additional economic development in partnership with the Detroit Pistons and Michigan State University. Along with the expansion of our facilities, the plan includes the construction of apartments, retail and other commercial elements. Our vision is centered on integration with the neighborhood by orienting these developments as dense and walkable.

The influence of anchor institutions such as Henry Ford Health, TechTown, the Detroit Pistons, and Wayne State University can bring vital positive force in stabilizing neighborhoods. We welcome the partnership of local developers such as Greatwater Opportunity Capital in this mission.

We look forward to the fruition of this important project at 450 Amsterdam, and wish Greatwater Opportunity Capital great success with it.

Sincerely,

Gene Barber, VP Facilities & Support Services

One Ford Place, 4A Detroit, MI 48202 Office: 313-874-6769

February 24, 2023

Mrs. Sarah Pavelko Senior Director of Development 9450 Amsterdam LLC 6001 Cass Ave Detroit, MI 48202

Dear Sarah,

The Platform is pleased to provide this letter of support for your proposed multi-family development project located at 450 Amsterdam, in New Center. 450 Amsterdam has a unique history as being the home of the 1st Cadillac Assembly Plant. This former industrial building has long sat empty and with this reactivation it will be given new life to a multifamily building for approximately 92 households bringing new life to a growing walkable neighborhood.

The Platform has invested in several projects in the New Center area as well as the surrounding neighborhoods including the iconic Fisher Building and 6001 Cass, both of which are within two blocks of 450 Amsterdam. Developing quality housing in vibrant walkable neighborhoods is important for the further growth of neighborhoods outside of the downtown core. Improving the housing supply and creating quality homes for residents in neighborhoods is key to sustaining neighboring businesses. The 450 Amsterdam project will positively contribute to those objectives and we believe 450 Amsterdam will be very beneficial to the great New Center neighborhood.

Sincerely,

Clarke Lewis

VP of Development

Clarke Lewis

TO:	THE DETROIT BROWNFIELD REDEVELOPMENT AUTHORITY

FROM: DETROIT, BUILDINGS, SAFETY ENGINEERING, AND

ENVIRONMENTAL DEPARTMENT

PROJECT: 450 Amsterdam

DATE: 2/20/2023

The undersigned, from the City of Detroit, Buildings, Safety Engineering, and Environmental Department acknowledges the receipt of the environmental documents listed below, which have been submitted by Partner Engineering and Science, Inc. on behalf of GOC Acquisitions, LLC, as developer, as part of its Brownfield Plan submittal to the Detroit Brownfield Redevelopment Authority (DBRA), for the 450 Amsterdam Development project.

1	Phase I Environmental Site Assessment, pursuant to USEPA's. All Appropriate Inquiry using American Society of Testing Materials (ASTM) Standard E 1527-13
1	Phase II Environmental Site Assessment, pursuant to ASTM Standard 1903 (if appropriate)
	Baseline Environmental Assessment, pursuant to Part 201 of Michigan 's Natural Resources and Environmental Protection Act, MCL 324.20101 <i>et seq.</i> (if appropriate).
	Due Care Plan, pursuant to Part 201 of Michigan's Natural Resources and Environmental Protection Act, MCL 324.20101 <i>et seq.</i> (if appropriate).

Based upon its review of the above environmental documents and the representations of the developer, the City of Detroit, Buildings, Safety Engineering, and Environmental Department agrees with the environmental consultant that there does not appear to have been a measurable release to the subsurface and therefore, the site is not considered a Part 201 "facility." The documents received for this project satisfy the DBRA Guidelines.

1. What is the plan for hiring Detroiters?

During the construction phase, the general contractor (GC) has been advised by the development team to make additional efforts to solicit bids from Detroit based businesses and firms that hire residents of the city of Detroit. Our contractor will widely circulate the bid documents including to a list of Detroit based, minority-, woman-, or veteran owned subcontractors. The development team will review all bids received from these subcontractors.

Our property manager will post all positions created for the management of the building through the Detroit At Work website.

2. Please give a detailed description of the jobs available as listed in the above chart, i.e. job type, job qualifications, etc.

It is anticipated that 1 full-time equivalent (FTE) job will be created by the future property management company. We will ask that our property management firm seek out local Detroit and minority candidates for property management positions and that they post these opportunities in spaces where these groups of people are likely to see them. We also ask that they post any position at Detroit at Work and other agencies promoted by the City of Detroit.

The temporary positions are various construction jobs.

3. Will this development cause any relocation that will create new Detroit residents?

There are no current residents at the subject property that will need to be relocated as a result of this development.

4. Has the developer reached out to any community groups to discuss the project and/or any potential jobs?

TechTown is comprised of several apartment buildings and institutions. The developer has received and garnered support from local organizations including Midtown Inc., Techtown, The Platform (local property owner) and UPrep.

5. When is construction slated to begin?

Construction is slated to commence in Spring 2023

6. What is the expected completion date of construction?

Construction completion is anticipated to be completed by Fall 2024

HISTORIC PRESERVATION CERTIFICATION APPLICATION NATIONAL PARK SERVICE CONDITIONS

Property Name	Cadillac Motor Car Company Assembly Plant	Project Number	45902
Property Address	450 Amsterdam, Detroit, MI		

The rehabilitation of this property as described in the Historic Preservation Certification Application will meet the Secretary of the Interior's Standards for Rehabilitation provided that the following condition(s) is/are met:

- 1. The infill of existing vehicular entrances or loading doors must be compatible with the historic character of the opening. If the design of the infill resembles a door in the closed position, the grid pattern must run across the entire opening including the operable door and must have a solid panel at the bottom.
- **2**. Except in limited locations, the window openings on the ground floor of the east elevation and on the second floor of the west elevation must be maintained in their historic configuration. Enlarging the openings below the existing sill as proposed significantly alters the character of the property and must be undertaken.
- 3. Subdividing the loading docks into patios or creating new patios along the east elevation as proposed is not compatible with the historic character of the property and must be deleted from the project.
- **4.** New HVAC trunk lines and other equipment must not become a prominent feature of the corridors. Section drawings showing the size and location of all new equipment must be submitted for review and approval before proceeding with this work.
- **5**. The new replacement windows must match the design and profiles of the historic windows. Comparable detailed dimensioned drawings showing the profiles of both the existing historic windows and the proposed replacement windows must be submitted for review and approval before proceeding with any window installation.
- **6**. This approval does not extend to work not described in the Part 2 application, including but not limited to, new landscaping, signage, or any other work details of which have not been submitted for review and approval to the State Historic Preservation Office and this office. Federal regulations governing this program require evaluation of the entire project. This approval may be superseded if it is found that the overall rehabilitation does not meet the Secretary's Standards. Please submit for review the information regarding any additional work as soon as available to ensure conformance of the overall project with the Secretary's Standards.

Photographs documenting that the conditions have been met must be submitted with the Request for Certification of Completed Work.

Any substantive change in the work as described in the application should be brought to the attention of the State Historic Preservation Office and the National Park Service in writing, using the Amendment/Advisory Determination form, prior to execution to ensure that the proposed project continues to meet the Standards.

The National Park Service has determined that this project will meet the Secretary of the Interior Standards for Rehabilitation if the condition(s) listed above are met.

RE:

450 Amsterdam Brownfield obsolescence determination

Dear Ms. Kanalos:

The Assessment Division of the Finance Department has reviewed the proposed project for the property located at 450 Amsterdam, Detroit, Michigan (the "Property") in anticipation of the Property being included in a brownfield plan.

The Brownfield Redevelopment Financing Act ("Act 381") requires that a level III or IV assessor make a finding that the Property is "functionally obsolete", as defined by Act 381, and provide the underlying basis for that opinion. Section 2(s) of Act 381 defines "functionally obsolete" as property that is "unable to be used to adequately perform the function for which it was intended due to a substantial loss in value resulting from factors such as overcapacity, changes in technology, deficiencies or superadequacies in design, or other similar factors that affect the property itself or the property's relationship with other surrounding property." MCL 125.2652(s).

The Assessors Manual defines functional obsolescence as "a loss in value occurring in a structure caused by changes in design, overcapacity, or inadequacy." Michigan Assessors Manual, Vol. I Glossary, p. 239.

The Property was originally intended for industrial use, and without substantial updates and renovations, the Property is not able to meet market demand for its future residential use for several reasons, including, but not limited to: lack of modern electrical, plumbing, mechanical and fiber optic systems, poor condition of the floors, ceilings, roof, and walls, lack of fire protection systems, lack of energy efficiency in antiquated materials and equipment, obsolete building materials through the presence of lead and asbestos, and inadequate clearance height & column span compared to market's standards.

The Office of the Chief Financial Officer, Office of the Assessor, finds the Property to be functionally obsolete within the definition of the Assessors Manual and the Brownfield Redevelopment Financing Act.

Sincerely,

Charles Ericson, MMAO (IV) Assessor, Board of Assessors
